

Problem Solving Referral Form

Problem-Solving is a short-term housing intervention that seeks to assist participants to maintain their current housing or identify an immediate and safe housing alternative within their own network of family, friends and social supports. By working alongside people facing a housing crisis in an empowering manner, Problem-Solving can assist them at the very beginning of their housing crisis, or shortly after they enter the system. Problem-Solving is attempted as the first intervention with persons experiencing a housing crisis newly-presenting or returning to the Coordinated Entry System (CES).
