Starring Bellamy Young (ABC's *Scandal*, upcoming Hulu Original Series, *The Other Black Girl*), and playwright, Tyler Martin (*Don't Suck*, *What I First Desired*), *BONDED* was met with rave reviews for its stunning performances and authentic storytelling during the play's first stage-reading last October in New York City. *BONDED* tells the account of a young queer man, Emmett, and his estranged older sister, Nellie, as they unearth and navigate their shared family trauma while attempting to find a solution for Emmett's impending prison sentence. Tackling themes of trauma and survivorship in a fresh new way, *BONDED* ultimately inspires and offers healing to audiences. Don't miss your final opportunity to witness this incredible play!
